FEB 06 2006
of Correction

Sir:

Please find attached a proposed Certificate of Correction.

Please correct the following error appearing in the printed patent, which is the fault of the U.S. Patent and Trademark Office, as per the attached Certificate of Correction. Since the error is the fault of the USPTO, no fee is due.

On the cover of the printed patent, at Item (57), Abstract, lines 15-20, delete "Impact action can be generated, and screw tightening and loosening work can be carried out even if a low-torque motor is used. Magnetic impact action can be carried out and the load applied to operator's arm can be lightened even when working with a low-load screw wherein the load torque does not exceed." This appeared correctly on the Examiner's Amendment attached to the Office Action mailed February 18, 2005.

FEB 6 2006

Therefore, it is respectfully requested that a Certificate of Correction issue in the above-identified patent as follows:

On the cover of the printed patent, at Item (57), Abstract, lines 15-20, delete "Impact action can be generated, and screw tightening and loosening work can be carried out even if a low-torque motor is used. Magnetic impact action can be carried out and the load applied to operator's arm can be lightened even when working with a low-load screw wherein the load torque does not exceed."

Should there be any questions, the Examiner is invited to contact the undersigned at the below-listed number.

Respectfully submitted,
S. SHINAGAWA et al.
